## 2. Gakkensai insurance premium

The University requires all students to be covered by an insurance policy provided by Japan Educational Exchanges and Services (JEES). The policy is known as Gakkensai in Japanese—Personal Accident Insurance for Students Pursuing Education and Research (with the additional coverage for the prevention of contact infection).

In addition to covering yourself, some institutions require enrollment in this insurance for internships and practical training, so many universities make use of this insurance.

Pay the insurance premium as follows.

### ▼ Pay the Gakkensai insurance premium

Pay the premium online using the e-apply service.

The system is scheduled to become available for use roughly one week after the successful applicants have been announced.

<https://e-apply.jp/ds/chiba-u-oln/public/login>

- (1) Logging in requires the last two digits of your year of entry (Western calendar) + your exam number\* and your date of birth. The premium to pay is displayed after you log in.  
\* For example, if entering in 2025 with an exam number of AB12345, the code would be “25AB12345.”
- (2) A policyholder card will not be issued. Print and save the PDF receipt using the link provided in the payment completion email or from your My Page screen.
- (3) If you wish to withdraw from entering the University after paying the insurance premium, please inform the office in charge of your graduate school that you wish to perform the procedure to have the insurance premium refunded.

Note that the refund process will take about one month.

---

Created in 1976 with the participation of universities throughout Japan, **Gakkensai insurance** is designed to help enhance university education and research activities by providing students with the compensation needed for damages incurred while studying or doing research. It's currently provided by Japan Educational Exchanges and Services (JEES). (For more information, visit the following website.)

Currently, roughly 95% of all universities and junior colleges in Japan are participating members. The lead underwriting company is Tokio Marine & Nichido Fire Insurance.

JEES website: <http://www.jees.or.jp/gakkensai/index.htm>

#### **(1) Personal Accident Insurance for Students Pursuing Education and Research (Gakkensai)**

Gakkensai is an insurance policy designed to provide compensation for damages incurred by unexpected accidents that take place during a student's time at university. It covers accidents that take place during lab work, practical training, physical education, practical skill training, classroom attendance, school events or extracurriculars. It also covers accidents that take place during travel between home and school for any of these school activities when a reasonable route and means of transport have been used.

#### **(1)-1 Optional coverage for commuting accidents (Tsuugaku Tokuyaku)**

Tsuugaku Tokuyaku provides compensation for accidents that take place while a student is commuting between home and school or between school facilities for regular school attendance, school events or extracurriculars (club meetings) when a reasonable route and means of transport (not a means prohibited by the university) have been used.

---

### 3. Inbound Futai Gakuso insurance premium

The official name is “Comprehensive Insurance for Students Lives Coupled with "Gakkensai" for International Students.” All international students are also required to be covered by an insurance policy that provides compensation in addition to the Gakkensai compensation.

The policy is known as Comprehensive Insurance for Students Lives Coupled with Gakkensai, (shortened to Inbound Futai Gakuso in Japanese). This comprehensive policy provides year-round, 24-hour-a-day coverage for incidents that arise during the student’s time at the University. It includes personal liability coverage for damages incurred by the student during an internship or part-time job, and compensation for rescuer expenses associated with a hospital stay. Type B also covers medical expenses incurred for outpatient treatment of an illness or injury, starting from the first day of treatment. The personal liability coverage includes a settlement negotiation service to ensure worry-free claims resolution for international students with limited Japanese language ability.

Two different policy types are available, Type A and Type B. Type B provides compensation for out-of-pocket expenses paid directly to the healthcare provider if the policyholder is enrolled in Japan’s National Health Insurance scheme and is in Japan for a stay of at least 3 months.

#### ▼ Pay the Inbound Futai Gakuso insurance premium

Complete the signup procedure on the following website, and pay the premium at a convenience store in Japan.

<https://tokiomarine.my.salesforce-sites.com/futaigakuso?id=001680Y>

### ▼ Chiba University ISD website

The ISD website has a wealth of in-depth information on topics such as residence statuses, scholarships, housing and cultural exchange events. Be sure to make the most of this valuable resource.

<https://www.chiba-u.ac.jp/international/isd/index.html>

## I Guidance for new international students

Videos are available to provide guidance on important matters when starting your new life as an international student in Japan, such as Chiba University support services for international students, scholarships, residence statuses, Japanese laws and rules, and earthquake and disaster readiness. **New international students will definitely benefit from watching these videos. Face-to-face guidance is also available for anyone who wishes.**

## II Help with residence registration and information on opening a bank account

ISD can help international students open a Japan Post Bank account and register their residence in the city of Chiba.

Within 14 days of arriving in Japan, international students must register as residents at their local city or ward office and enroll in Japan's National Health Insurance and National Pension schemes. (P. 17) You'll also need a bank account for receiving scholarship payments and withdrawing dormitory fees. You may also get advice on opening a bank account if you need one to receive scholarship funds or to set up automatic payments for rent and other expenses.

If you would like assistance with these procedures, see the above ISD website for information on how to request help.

## III Residence statuses

The ISD website provides information on the procedures for non-Japanese citizens to legally reside in Japan.

See to the next page for more information.

## IV Apartment lease guarantor system (institutional guarantee)

When international students enrolled at Chiba University rent a privately owned apartment, this system enables Chiba University (the Director of the International Student Division) to serve as the joint guarantor. Use the guarantor system if finding your own guarantor will be difficult.

See the website for more information.

## V Scholarship programs

---

To be able to apply for scholarships for privately financed international students that call for a university recommendation (scholarships provided by private organizations or by Japan Student Services Organization (JASSO)), you'll need to register once per year as an applicant for scholarships for privately financed international students. More information is provided on the website.

### I Residence Card

Under Japan’s Residential Basic Book Act, non-Japanese citizens residing in Japan for at least 3 months have the same obligation as Japanese citizens to register as residents. Resident registration is used to manage information about the residents of each city, ward, town and village. The information registered includes each resident’s name, date of birth, residential address and National Health Insurance coverage history.

Residence registers for non-Japanese citizens are created from the information on their Residence Card. Upon entering (but not re-entering) Japan, **you’ll be issued a Residence Card during the immigration procedures at the airport**. You must report your address to your local city or ward office to have this address entered on the back of the Residence Card (see Item III, ‘Resident Relocation Notification’).

▼ **Your Residence Card is an important document used to prove your identity.**

- You must have your address entered on the back of your Residence Card by your local city or ward office.
- Non-citizens are legally required to be in possession of their Residence Card at all times.
- Be sure to keep your Residence Card information up-to-date via the University’s Student Portal.

### II My Number

Non-Japanese citizens residing in Japan for a medium-length or extended stay will also be issued a My Number. After receiving the notification card for your My Number, keep it in a safe place so as not to lose it. See the ISD website for more information.

### III Resident Relocation Notification

If you enter Japan for another stay or move within Japan, you must submit a Resident Relocation Notification to your local city or ward office no more than 14 days after deciding on your new address. Be sure to report your change of address and have the new address entered on the back of your Residence Card.

When you relocate as a resident in Japan, you need to have a Moving-Out Notification issued from the city or ward office of your old address. This notification is needed to complete the Moving-In Notification process done at your new city or ward office.

### IV Notifications to the Immigration Bureau

The Immigration Bureau must be notified no more than 14 days after changing your name or nationality for marriage or another reason, or after withdrawing from Chiba University to continue on with a higher program or transfer to another school. More information is provided on the ISD website. Be sure to read it and submit your notification on time.

## [Section 5] National Health Insurance, National Pension

### I National Health Insurance

---

Non-Japanese citizens residing in Japan for a medium-length or extended period (**including international students**) are **required to enroll in Japan's National Health Insurance scheme**.

Once enrolled in the scheme, you'll usually only have to pay 30% of the medical costs paid directly to the hospital or other healthcare facility.

Medical costs are expensive in Japan. Be sure to enroll in the National Health Insurance scheme. Even individuals in robust health can always have an unexpected illness or accident requiring medical treatment at a healthcare facility **that would incur a costly medical bill if not enrolled**.

Enroll in the scheme at the city or ward office where you registered your residence.

▼ **Everyone needs to enroll in the Japanese National Health Insurance scheme.**

You can apply for a discounted premium at your city or ward office if your income is below a certain threshold.

See the ISD website for more information.

### II National Pension

---

All registered residents in Japan between the ages of 20 and 59 are covered by the National Pension (Kokumin Nenkin) scheme. **Non-Japanese citizens who are required to register their Japanese residency (anyone issued a Residence Card) are also required to enroll in the scheme.**

An exemption program is available for residents who have difficulty paying the premiums. See the ISD website for more information.

### I Pre-registering to apply for scholarships for privately financed international students

#### 1. Procedure

Students seeking a scholarship for privately financed international students need to **register their scholarship seeker status** in advance. This requirement applies to scholarships calling for a university recommendation, such as a JASSO (Japan Student Services Organization) scholarship or a privately funded scholarship.

Once you have registered, the committee will assess your registered information to determine your recommendation rank. Applicants are assessed on the basis of criteria such as grades, year in school, tuition exemption history and scholarship history. When a scholarship offer is subsequently received from a foundation, seekers of that scholarship submit an application to the International Student Division, and the applications are recommended in accordance with the student rankings.

#### ▼ Notes on pre-registration

- 1) You must pre-register to apply for scholarships that require a university recommendation.
- 2) The following students are required to register:
  - Privately financed international students who wish to apply from within Japan for the Japanese Government/MEXT Scholarship for International Students
  - Privately financed international students who are on the reservation list for a scholarship provided by Japan Student Services Organization (JASSO)

#### 2. Requirements for registering (requirements 1) to 3) below must all be satisfied)

- 1) The applicant must be an international student due to be enrolled in the year of the scholarship award, as a student in a degree program (undergraduate or graduate) or a research student.  
(The applicant must have a Ryugaku (Student) residence status. The same applies to students planning to enter or planning to advance to a higher degree program.)
- 2) Students in a degree program must not exceed the standard length of time for program completion (excluding periods of leave of absence).
- 3) The applicant must have superior grades and have not received any disciplinary action within the past year.

#### 3. How to register

Students seeking to register as a scholarship applicant who satisfy the registration requirements of Item 2 above **must register by the specified deadline** after checking the registration procedure on the website below. Applications received after the deadline will not be accepted.

However, when declining enrollment after applying, the application will be considered withdrawn, and the entrance fee must be paid right away.
- 3) If, as a result of the screening process, payment of the admission fee is required, then non-payment of the entrance fee by the payment deadline will result in expulsion of the student under Article 25, Paragraph 1, Item 1 of Chiba University's graduate school regulations.
